

Holistic Therapies

AT MARTHA'S ORCHARD

Another Day, Another Dream

Relax & unwind in the comfort of your accommodation with a range of therapies brought to you by our professional & experienced therapist.

With all treatments, pressures and techniques are adjusted according to your particular requirements. A consultation is given prior to every treatment, so that you can gain the most benefit from the treatment.

HOLISTIC & ADVANCED MASSAGE

Body massage is an effective traditional therapy used for releasing muscle tension and relieving aches and pains, to promote relaxation and alleviate stress.

Tension can be caused by repetitive movements, or prolonged periods in fixed positions such as office work and driving.

This therapy can be directed at one area of the body, or alternatively the whole body can be treated. Oils will be used with a light touch or firm pressure applying deep tissue massage techniques, depending upon your preference.

You have the choice of a 60 minute massage where attention will be given specifically to a particular area such as the back, neck and shoulders. Up to 90 minutes for a full body massage. Or indulge yourself with a 120 minute deluxe massage where the full body can be treated, including the scalp and face with extra attention given to particularly tense muscles.

FACE, SCALP, NECK & SHOULDER MASSAGE

This treatment can be either with oils to moisturise the skin and hair, or alternatively with no oils and with you fully clothed. The massage focuses on areas of tension and stress, helping to relax and uplift the facial muscles and relieve those tension-related headaches.

REFLEXOLOGY

Reflexology is a non-invasive and relaxing holistic therapy that treats the whole body via the feet. It is based on the principle that reflexes in the feet represent every part of the body. These pressure points are stimulated to release energy blockages and to help the body achieve a natural balance. Reflexology is aimed at improving physical and mental well-being and reducing stress.

This treatment also thoroughly massages the feet relieving the aches and pains for those of you who are on your feet all day.
